

HotSpots is our the licensed **Before & After Care** and they are offering and **All-Day program** to meet the childcare needs of our families due to the recent transition to virtual learning. The **All-Day program** will run from October 12th, 2020 until BCPS reopen for in-person learning. Their team is prepared to provide your children remote learning support along with the opportunity to engage in physical fitness, hands-on student driven projects and healthy snacks.

The program will be in the cafeteria where students will have the opportunity to complete virtual learning assignments and work sessions daily. We will follow MSDE & OCC Childcare Health & Safety Guidelines, and Temperature Checks and a Health Screening will be required daily for admission to program.

All programs have capacity limits and a spot in the program cannot be guaranteed. We recommend registering as soon as possible, as we anticipate that the program will fill quickly.

If you interested in enrolling in the **All-Day program**, visit www.hsecp.org/get-started/ or contact Phil Beam at (410)591-4552 or through email at pbeam@hsecp.org.
